

WHITE ANGELS HIGH KALAGALA MPIGI

S.1 CORONA VIRUS CHEMISTRY

HOLIDAY WORK

WAHSK

1. As a Senior one student of WAHSK who has studied chemistry; write a sensitization message to your community

On how they can avoid the deadly CORONA VIRUS include chemicals that can be used to prevent it.

2. You are at home in this corona virus holiday yo mother asks you to prepare for her juice. Describe the steps you can follow to prepare the juice from named fruits.

3. You have received new students in your class, prepare a brief message to deliver to them on the importance of the laboratory in the study of chemistry detailing why they should not enter the laboratory and carrying out their own experiments without instructions from the teacher or laboratory worker.

Nice Corona virus holiday stay safe and wash your hands frequently!!!
